RWANDAIR SECURITY POLICY

RwandAir has developed and maintains a Security Program in compliance with the requirements of Rwanda national security program, Civil Aviation Authority Regulations and security requirements of other states where RwandAir operates. The Security Program ensures that all appropriate personnel are trained, familiar and comply with its requirements including the company's own standards.

It is meant for the protection of aircraft, facilities, passengers, personnel and assets from any acts of Unlawful interference. RwandAir is committed to provide resources for the successful implementation, communication, realization, periodic review of the program for continual improvement and benchmark against best industry practices. It is RwandAir's policy to promote security awareness, establish Security Culture and set objectives and performance standards at every staff level.

It ensures a free flow of information with regard to security issues and threats as matters related to security are not negotiable. All senior and front line management personnel have operational security responsibilities included as core accountability in their job descriptions. RwandAir upholds a Non-punitive and no Blame Policy of reporting within the organization to ensure that; unpremeditated errors committed inadvertently, will have no disciplinary consequences against the report writer or anyone else unless it is proven that the event is the result of unlawful acts, gross negligence or subsequent bad conduct.
